COVER LETTER

Dear Friend and Potential Partner In Business/Employer,

With the utmost enthusiasm, I would like to express my interest in this position. My interest in Coding and Technology has taken me from launching my very own e-commerce businesses to utilizing the power of Coding to increase my skills and build projects. I believe that my passion for Technology, strong commitment to Improvement and Learning, and interest in the ever-changing field of IT make me an ideal candidate to join the staff at your organization..

As a candidate, here's what I could immediately bring to the table:

As an independent researcher, it has been a patient process for me taking steps to become a Web3 & NFT Developer/Advisor. I got my start as a Front-End Developer however I feel I am ready to enter into a field where I could really put my skills and ideas to good use.

Innovator & Web3

I've also Created ERC-1155 & ERC-721 NFT Smart Contracts which utilize the Programming Language "Solidity" Which is similar to popular "Javascript" language. I developed these "Smart Contracts" for my own personal projects along with the development of the Front-End Websites for each. I also held the roles of: Community Manager(Discord), Blockchain/Front-End Developer, NFT 3D Artist and Social Media Marketing Manager for each of these personal projects.

A Disciplined Self Starter:

As a self starter, I am able to manage my own task and time. I prefer to work remotely and look forward to learning from your guidance and wisdom as an organization.

Understanding & Self-Awareness:

Although I don't have a Master's or a PH.D, I Do Have a deep interest and knowledge of Web 3.0 which includes Crypto, NFTs, Dao's, Defi etc.

I DO have experience designing token economies and whitepapers/lite papers as well as creating documentation.

I DO have experience in 3D Modeling/Art Creation .

I AM Highly Motivated and A Self-starter as well as an adaptive learner. My Commitment and Communication is Excellent All-Around.

I look forward to contributing my skills and experiences to the position at your organization and look forward to speaking with you further about how I can be an asset to your team.

Sincerely,

Genogrand.eth
